# 4 STEP PROCESS TO PUT AGING ON REVERSE GEAR

## STEP 1 : UNCOVER

Dead, dull skin, black and white heads debris is effortlessly wiped out of your face with a patented handpiece.

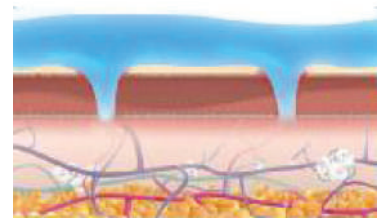

## STEP 2 : HARVEST

Skin is literally harvested using patented roller RF technology. This technology pushes fibroblast production and new collagen begins to remodel skin making it younger, tighter and lifted. New microchannels are opened in SKIN which are instrumental in product infusion and deep hydration of Skin.

## STEP 3 : ACCOUSTIC INFUSION

This technology is used to penetrate skin repair peptides deep in to skin through microchannels. The infused products enhance antiaging results 8x faster than any topical cosmetics.

## STEP 4 : PHOTON THERAPY

4 color photon therapy ensures: All problem causing oxidants, bacteria and cleansed out of your skin, The pigments are selectively targeted to reduce age spots and pigmentation, The desired results of the treatment are immediately visible with Instant healing.
