The 5 in 1 clinical platform for the skin treatment HIFU, Pixel RF, Ultra Impact Rotating Peel, and PDT

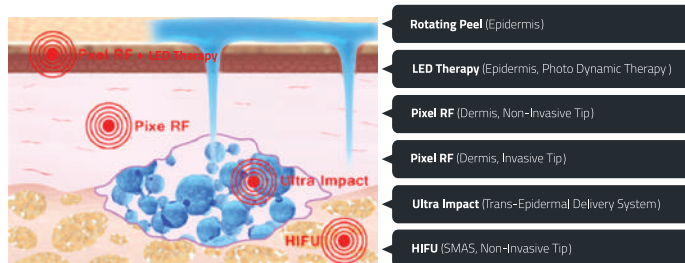

The Refresh Gold treatment combines HIFU, PDT and TEDS (PixelRF and Ultra Impact) treatments. This advanced system restores the natural youthfulness and beauty of the skin and is completely safe and painless

Advantages

- > Non-Surgical - Non-Invasive
- > Energy at a depth of 1.3 cm for subcutaneous adipose tissue burning.
- > Regular Treatment Matrix with 24 lines per press.

All layered therapy: Target each skin layer

Great Results

8 HAND PIECES

INTELLIGENT HIFU

Non-surgical - Non-invasive, Deep treatment up to a depth of 1.3 cm, Regular treatment matrix with 24 lines per press

FOCUSED HIFU

Possible to set multi depth up to 3 shot, Can target a special anchoring point, No need to change a different depth cartridge.

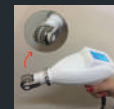

VARIABLE HIFU

3 different depth cartridge (405mm, 3.0mm, 1.5mm), Triple layer (SMAS, Deep Dermis, Superficial Dermis) Lifting.

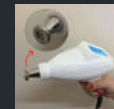

PIXEL RF- 30 (BODY)

PixelRF uses proprietary InMotion Refractive Radiofrequency Technology, which heats the skin through controlled, focused delivery of energy without using disposables.

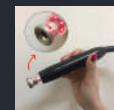

PIXEL RF- 15 (FACE)

PixelRF uses proprietary InMotion Refractive Radiofrequency Technology, which heats the skin through controlled, focused delivery of energy without using disposables.

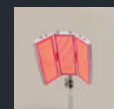

ULTRA IMPACT

Latest penetration technology, It works on 2 levels. 1) improving the blood circulation. 2) Pushing the serum into the skin without injection.

ROTATING PEEL

Microcrystal Dermabrasion with 4 rotating speeds and suction and 9 tips, very good for the face, back, elbows, knees to remove dead skin and it helps to lighten the pigmentation.

LED THERAPY (PDT)

LED light therapy is a painless, relaxing, non-invasive skin-care treatment that has multiple benefits—particularly stimulating collagen and treating mild to moderate acne.
