FREEZE AWAY FAT ON BODY & DOUBLE CHIN TOGETHER

HOW IT WORKS?

CryoBoss is non-invasive procedure that uses freezing technology to eliminate fat without surgery. It selectively targets fat cells which are eliminated by natural body process called apoptosis.

You get excellent body contouring results without pain or side effects.

VACCUM

Place the applicator on the target area then fat layer is sucked up inside applicator to the cooling plate.

DELIVERING COOLING ENERGY

Precisely controlled strong cooling Energy.

COOLING

Only affect fat layer without Damage to other tissues.

APOPTOSIS

Frozen fat cells are dead and gradually eliminated from the body by natural metabolism processes.

WHY CRYOBOSS

IT'S SELECTIVE

Proper level of cooling energy selectively effects to fat cell only without any damages of surrounding other tissue. Only fat cell will be selectively removed.

IT'S NATURAL

Cryo fat reduction is activated based on the process of Apoptosis, not Necrosis. Based on the histological sequence of inflammatory response, dead fat cells are excreted through the macrophages through sweat and urine. This process lasts from 7 days to 90 days.

IT'S EFFECTIVE

Effectiveness will be started from 7 days to 90 days after the treatment. And this result lasts forever even after only one treatment.
